Waterlily reflections!

After coloring in Claude Monet's *Water Lilies* (1914-17), add an imaginary background to the pond upside down to make it look like a reflection of the surrounding landscape. The background could be trees, buildings, or even people.

Helpful hints:

1. Turn the page upside down to make it easier.

2. Make the upside-down image blurred. Vertical color pencil strokes are effective to create a mirrorlike still water surface.

3. Young children may want to draw the background on a separate sheet of paper, then cut and paste the colored flowers and lily pads on top.
